

JEPPESEN[®]
NavData[®] Alert

!! URGENT !!

Date: 11 August 2011

Subject: Belgrade, Serbia
Nikola Tesla Airport (LYBE)
Belgrade [BEO] VOR
Multiple Arrival, Departure and Approach Procedures
Cycles 1108 and 1109

Changed Arrival, Departure and Approach Procedure information and Navaid unserviceable

Jeppesen NavData for cycle 1108 and 1109, effective 28 July 2011 and 25 August 2011 respectively, does not contain the updated information for multiple Arrival, Departure and Approach Procedures at Nikola Tesla Airport; Belgrade, Serbia (LYBE). Because of the Belgrade [BEO] VOR outage, AIP Supplement 1/11 was published on short notice. As a result, the changes contained therein are not available in cycle 1108 and could not be processed for the 25 August 2011 effective date (cycle 1109).

THEREFORE, DO NOT USE THE ARRIVAL, DEPARTURE AND APPROACH PROCEDURES LISTED ON THE FOLLOWING PAGES IN CYLES 1108 AND 1109 NAVDATA.

Revised coding will appear in Jeppesen NavData for cycle 1110, effective 22 SEP 2011. Until then an entry will appear in the NavData Change Notices beginning 19 Aug 11, and this Alert will be posted on the Jeppesen Web site

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.

LYBE_1109
