

## **!! URGENT !!**

**Date:** 2 July 2008

**Subject:** Santo Domingo, Dom Rep  
Las Americas Intl (MDSD)  
VOR DME Rwy 35L [D35L]  
Cycle 0807

### ***Incorrect Waypoint and Approach Transition Identifier***

Jeppesen NavData for cycle 0807, effective 3 July 2008, contains an incorrect waypoint name on VOR DME Rwy 35L (D35L) at Las Americas Intl (MDSD); Santo Domingo, Dom Rep. The correct waypoint name at CDO VOR R-180/D13 should be ANEBI, instead of the current waypoint name MUNSA. Per ARINC naming conventions, waypoint ANEBI should also be used for the Approach Transition Identifier at CDO VOR R-180/D13, instead of the current Approach Transition Identifier of MUNSA.

### **THEREFORE, USE CAUTION WHEN USING VOR DME RWY 35L [D35L] PROCEDURE IN CYCLE 0807 NAVDATA.**

Revised coding will appear in Jeppesen NavData for cycle 0808, effective 31 July 2008. Until then an entry will appear in the NavData Change Notices beginning 11 July 2008, and this Alert will be posted on the Jeppesen Web site ([www.jeppesen.com](http://www.jeppesen.com), click on Aviation Resources, On-line Publications, NavData NOTAMs/Alerts). The current Jepp chart 13-3-1 dated 27 July 07 will also be revised in the 11 July 08 revision. Between now and the 11 July 08 revision, the corrected chart will be available via Jeppesen HubWatch ([www.jeppesen.com](http://www.jeppesen.com), click on Notices and Alerts, then HubWatch on the left hand side).

### **WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!**

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, [www.jeppesen.com](http://www.jeppesen.com). Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
