

JEPPESEN[®]

NavData[®] Alert

!! URGENT !!

Date: 7 August 2008

Subject: Vina Del Mar, Chile
Vina Del Mar (SCVM)
Arrival MIROL 1 [MIROL1]
Cycle 0808

Incorrect Arrival Ident / Fix ident

As a result of receiving the Chile AIP Supplement 02/08 after the NavData cutoff, Jeppesen was unable to process the changes contained in this Supplement. Therefore, Jeppesen NavData for cycle 0808, effective 31 July 2008, contains an incorrect Arrival Name/Fix Ident for the MIROL 1 [MIROL1] Arrival at Vina Del Mar (SCVM); Vina Del Mar, Chile. Due to VOR DME SNO 113.7 being replaced by VOR DME DGO 112.3 the MIROL 1 [MIROL1] Arrival was renumbered to the MIROL 2 [MIROL2] Arrival and the fix ident of SNO VOR/DME was changed to DGO VOR/DME.

THEREFORE, USE CAUTION WHEN USING THE MIROL 1 ARRIVAL PROCEDURE AT VINA DEL MAR (SCVM); VINA DEL MAR, CHILE IN CYCLE 0808 NAVDATA.

Revised coding will appear in Jeppesen NavData for cycle 0809, effective 28 August 2008. Until then an entry will appear in the NavData Change Notices beginning 15 Aug 2008, and this Alert will be posted on the Jeppesen Web site (www.jeppesen.com, click on Aviation Resources, On-line Publications, NavData NOTAMs/Alerts). The current Jepp charts will also be revised in the 22 August 08 revision.

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: 303-328-4445 Fax: 303-328-4122

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
