Date: 28 September 2009

Subject: Kuala Terengganu, Malaysia
Sultan Mahmud (WMKN)
Approach Procedures

Revised Approach Procedures Made Effective by Notam

Jeppesen NavData for cycle 0910, effective 24 September 2009, contains Approach Procedure information for Sultan Mahmud; Kuala Terengganu, Malaysia (WMKN) in accordance with the Malaysia AIP. However, the Malaysia AIP Supplement 12/2009 revised all Approach Procedures at Sultan Terengganu, effective by trigger notam. Malaysia Class I Notam A2257/09 has made this information effective on 24 Sep 09. Due to the unknown effective date associated with this AIP Supplement, Jeppesen was unable to include these new procedures in NavData cycle 0910.

THEREFORE, DO NOT USE THE APPROACH PROCEDURES AT SULTAN MAHMUD (WMKN) IN CYCLE 0910 NAVDATA.

Revised coding will appear in Jeppesen NavData for cycle 0911, effective 22 October 2009. Until then an entry will appear in the NavData Change Notices beginning 9 Oct 09, and this Alert will be posted on the Jeppesen Web site:

(<http://www.jeppesen.com/company/alerts/aviation-alerts.jsp?region=Pacific%20Basin>).

For updated approach charts and new Arrival and Departures established by AIP Supplement 12/2009, see Jeppesen charts for Kuala Terengganu, Malaysia dated 26 Jun 09.

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: 303-328-4445

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
