

JEPPESEN[®]

NavData[®] Alert

!! URGENT !!

Date: 20 March 2013

Subject: Kigali, Rwanda
Kigali Intl (HRYR)
Cycles 1303 and 1304

All Arrivals and all Approach Procedures

Jeppesen NavData for cycle 1303, effective 7 MAR 2013 and cycle 1304, effective 4 APR 2013, contains incorrect flight information.

Rwanda AIP Supplement 01/13 dated February 2013 was received without the ICAO specified lead time for the distribution of significant changes to aeronautical information. As a result, changes to the procedures could not be processed prior to the changes becoming into force.

THEREFORE, DO NOT USE THE MENTIONED PROCEDURES IN CYCLES 1303 AND 1304 NAVDATA.

Correct coding will appear in Jeppesen NavData for cycle 1305, effective 2 MAY 2013. Until then, an entry will appear in the NavData Change Notices and this Alert will be posted on the Jeppesen Web site (<http://ww1.jeppesen.com/company/alerts/aviation-alerts.jsp?region=Africa>).

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: 303-328-4445

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
