

**Printing Instructions:**

Turn off scaling, select landscape orientation, and print on 11" x 17" paper

When printed, the dimensions of this cutout drawing are intended to be identical to the actual bezel dimensions.

**Template Instructions:**

**CAUTION:** Verify dimensions of the printed template are accurate before using it to mark and/or cut the panel. Poor print quality may cause variability in the dimensions.

For the display mounting fastener hole at each corner:

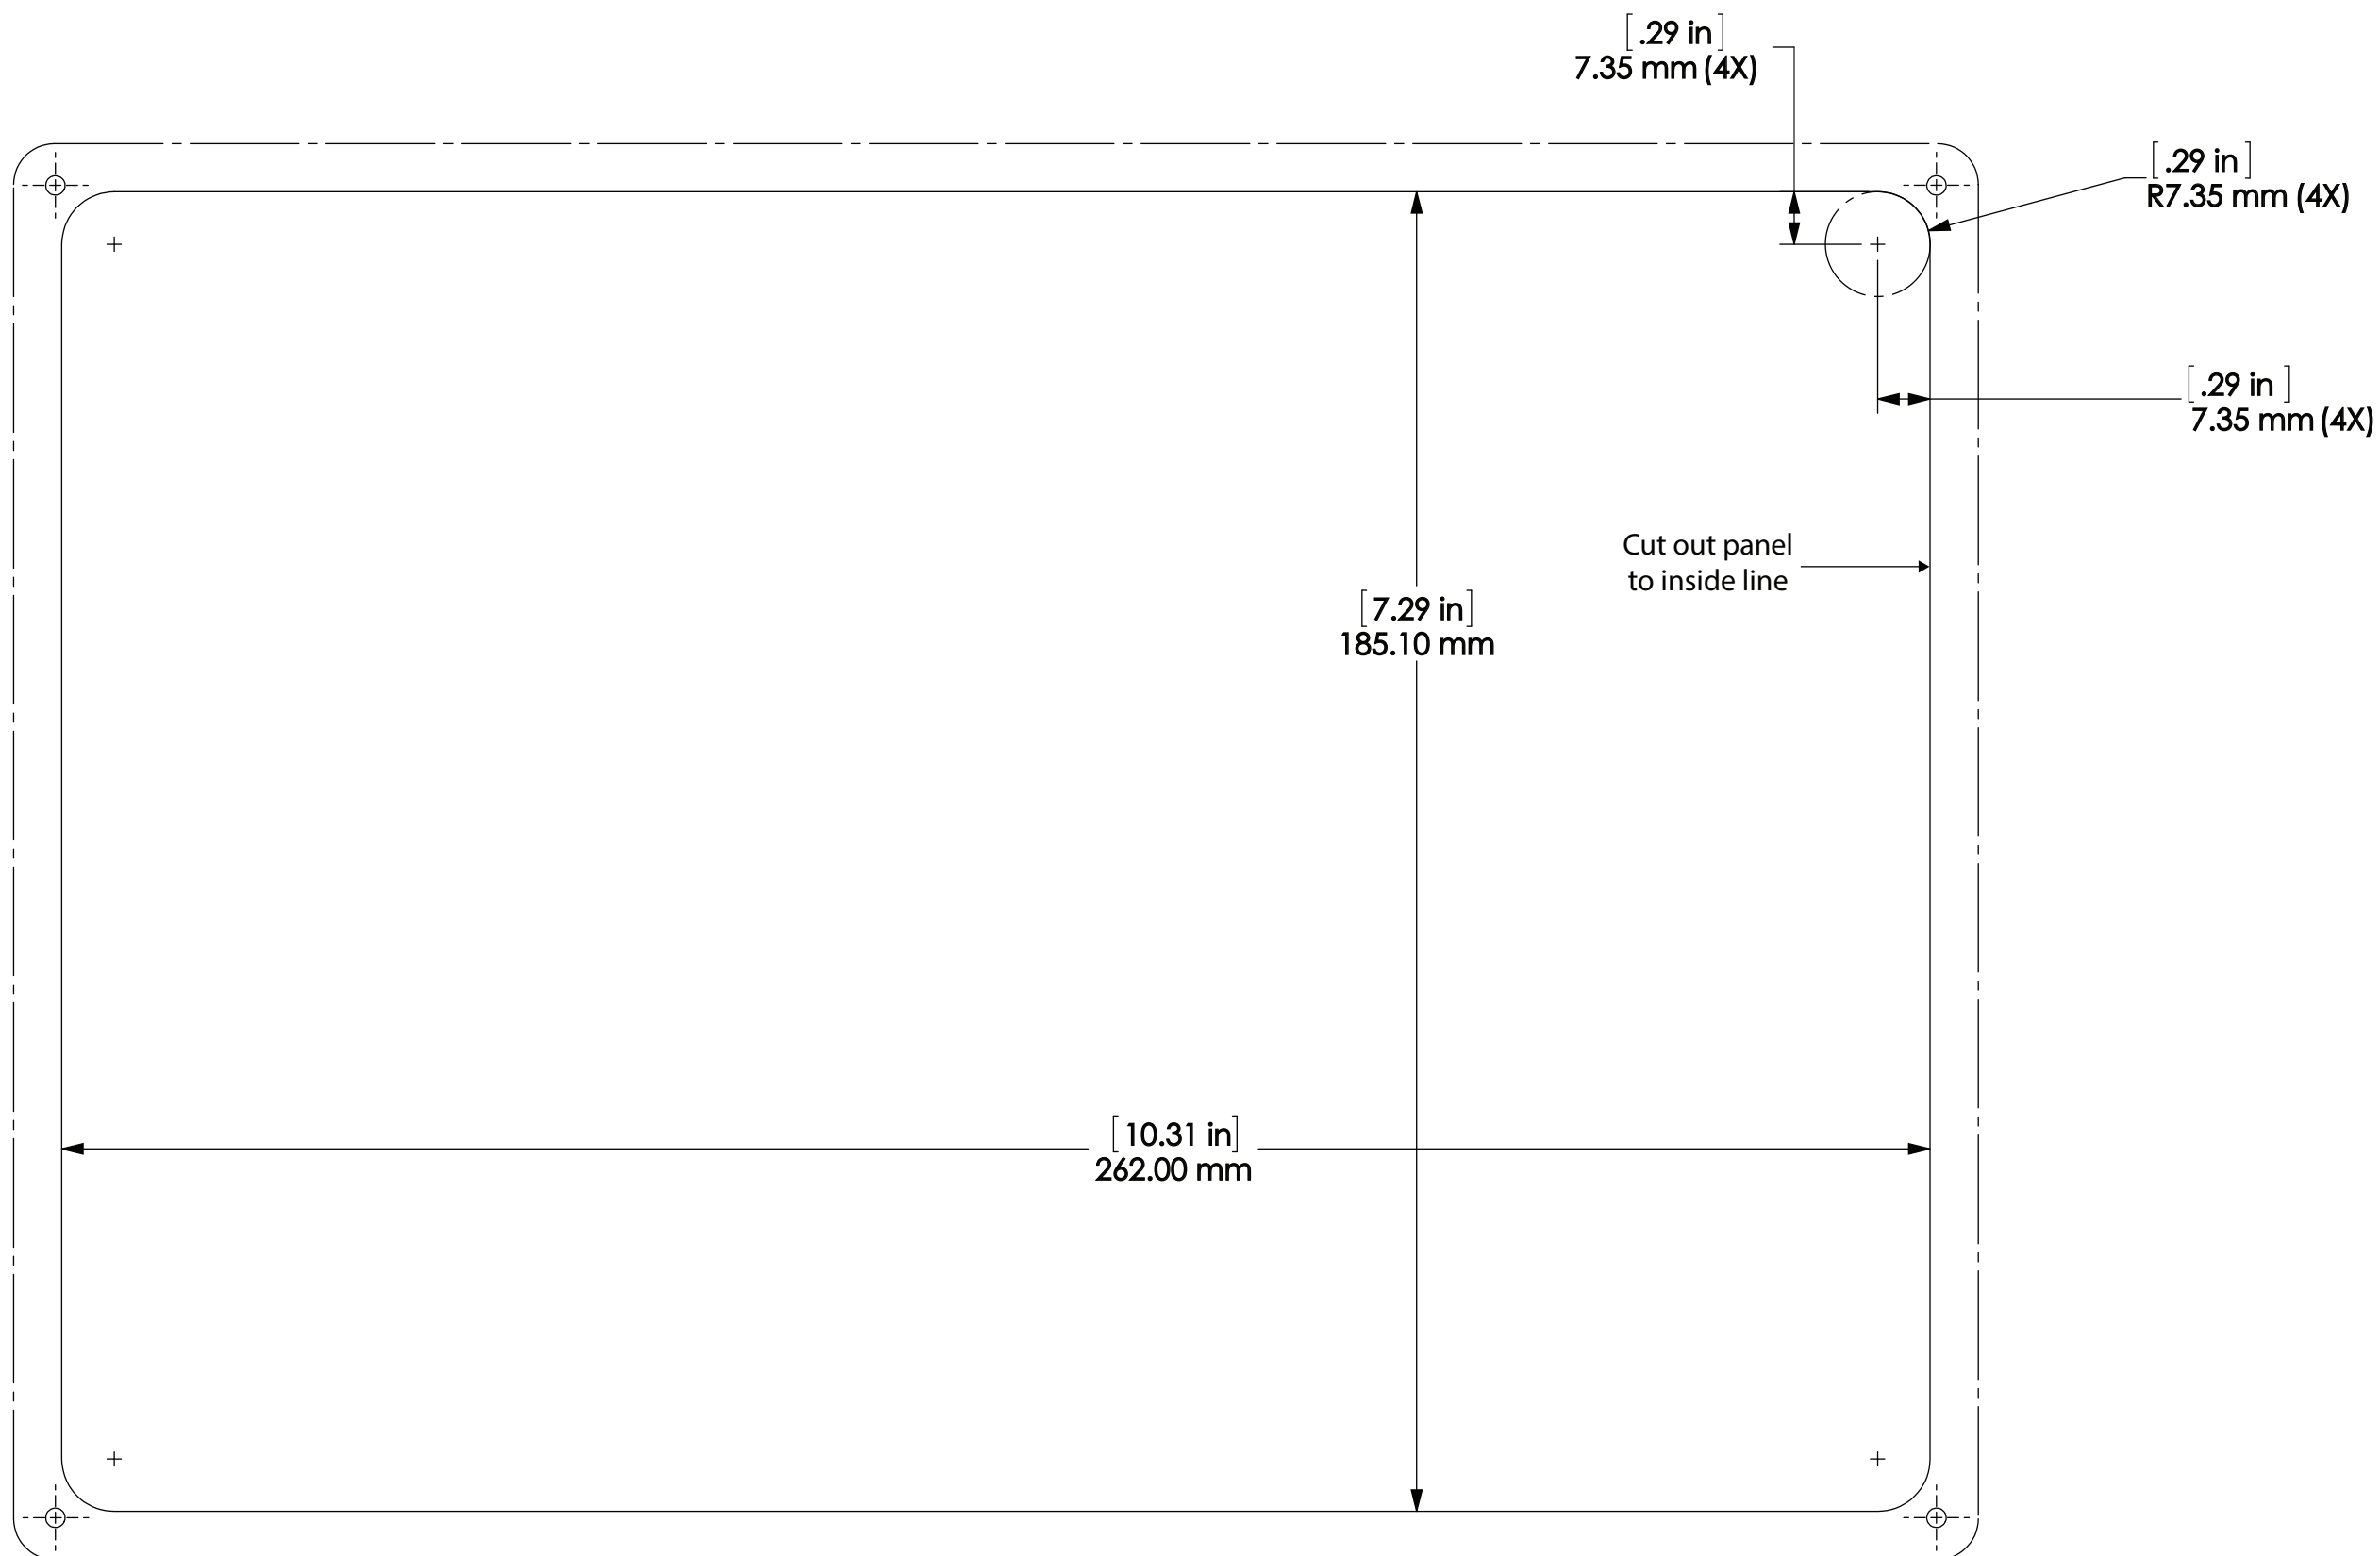

**EITHER**

Center punch and drill with #36 drill bit. Then, thread the holes using a 6-32 tap.

**OR**

Drill with #25 drill bit and use Garmin nut-plate P/N 115-01725-01.

Cut an opening in the panel to match the dimensions shown using the solid line provided.
