

StreetPilot GPS

*Car navigation
that goes from
here to here.*

Satellite navigation systems are all the rage. But only one can make the simple trip from one vehicle to another: GARMIN's StreetPilot™ GPS – the portable way to get around. There's no installation. No monthly service fee. No big investment. Just peace of mind from knowing you'll never get lost.

Plug in a city-specific MetroGuide™ cartridge and get residential street mapping detail. Not to mention an electronic yellow pages. But StreetPilot doesn't just list things like hotels, restaurants, businesses and ATMs, it'll take you there, too.

For more information on the navigation system that goes from here to there and from car to car,

visit our website at www.garmin.com. Or call 1 800.800.1020.

Get a StreetPilot. Drive smart.

StreetPilot GPS

Basemap: **Moving Map Features**
Built-in to 20 mi; includes lakes, rivers, coastlines, interstates, national & state highways, major airports; Exit data (ColorMap only)

Map Scale: Screen-width scale: 500 feet to 5,000 miles

Waypoints: 100 with name and symbol

Nearest: Continuously updated

Routes: 20 Reversible routes with up to 30 waypoints each

Receiver: **Performance**
Differential-ready, 12 parallel channel receiver continuously tracks and uses up to 12 satellites

Warm: Approximately 15 seconds

Cold: Approximately 45 seconds

AutoLocate™: Approximately 5 minutes

EZinit™: Easy initialization, 45 seconds

Update Rate: 1-second, continuous

Position: **Accuracy**
15 meters (49 ft) RMS** 1-5 meters (3-15 ft) RMS with DGPS

Velocity: 0.1 knot RMS steady state

Dynamics: 6gs

Interfaces: NMEA 183 and RS-232 DGPS correction

Antenna: Detachable with standard BNC-type connector

MetroGuide™: **Data Cards**
Miniature cartridges with street-level detail and local business information

Size: **Physical**
3.2"H x 6.8"L x 2.2"D (8.1 x 17.3 x 5.4 cm) (Standard)
3.2"H x 6.8"L x 2.6"D (8.1 x 17.3 x 6.5 cm) (ColorMap)

Weight: 1.2 pounds (478g) with batteries (Standard)
1.3 pounds (567g) with batteries (ColorMap)

Display: 240 x 160 pixel, 4-level grayscale, high-contrast LED, backlit FTN (Standard); 240 x 128 pixel, 16 color, high-resolution LCD, backlit (ColorMap)

Memory: Internal lithium battery backup lasts up to 10 years

Power

Source: 6 AA Batteries or 10-32VDC

Battery Life: Up to 16 hours (Standard)
Up to 2.5 hours (ColorMap)

Standard: **Accessories**
6 AA Batteries (Standard only)
User's Manual
Dash Mount
Quick Reference Card
Cigarette Lighter Adapter (ColorMap only)
PC download cable (ColorMap only)

Optional: Bean Bag Mount
Cigarette Lighter Adapter
Power/Data Cable
Carrying Case
Remote Antenna (GA26)
GBR21 Differential Beacon Receiver for DGPS Corrections
MetroGuide™ cartridges

Specifications are subject to change without notice.

* Displays shown are the StreetPilot ColorMap.

† Detail shown is with the optional MetroGuide™ cartridge inserted.
