

The StreetPilot c550 navigator delivers
preloaded maps, simple touch-screen

Adventure is calling — answer it

operations and plenty of options.

Like hands-free calling via compatible cell

phones using Bluetooth® wireless

technology. This feature allows you to

view incoming calls on your StreetPilot

and simply tap the screen to answer. Then

just speak into the c550's built-in micro-

phone while staying focused on your

driving. Other features include MP3 player

and text-to-speech voice guidance, which

means it announces streets by name.

The c550 also has a sunlight-readable

color display, high-sensitivity receiver and

traffic service options that can help you

avoid traffic delays (FM traffic receiver

and 3-month trial subscription included).

Moving map features

Storage: Preprogrammed with City Navigator™ NT, providing street-level detail and addresses, plus listings of restaurants, hotels, ATMs, etc., throughout the U.S., Canada and Puerto Rico

Map scale: Screen-width scale 640 feet to 4,000 miles

Navigation features

Route: Automatically calculated with turn-by-turn instructions; automatic off-route recalc shows how to get back on track if you miss a turn or exit; a detour function enables routing around traffic problems or road construction

Voice: Navigation instructions and warnings with TTS (text-to-speech) – unit prompts you to “turn right on Main street”

Traffic: Alerts for traffic, road construction and weather-related tie-ups. StreetPilot uses data to suggest alternate routes before problems are encountered

Waypoints: 500 with name and graphic symbol

Trip computer: Resettable odometer, timers, average and maximum speeds

Calling options

Hands-free calling: When paired with enabled cell phones, user can simply touch c550 screen to answer or disconnect a call. Speak into c550's built-in microphone or accessory mic while driving

Phone book: Stores contact numbers from paired phones that support phone book transfer

Dialing: One-touch dialing for stored contacts, points of interest (POI dial) or home. Phones that support voice tags allow hands-free (voice recognition) dialing

Theft deterrent

Garmin Lock™: When enabled, user must input PIN number to use device. Backup feature allows user to associate a security location, which will unlock unit when within 50 meters of that location

Download options

Location-based content: Garmin Travel Guide™, SaversGuide® and custom points of interest (POIs) like safety cameras and school zones

Others: Customized vehicle icons for moving map

GPS performance

Receiver: SiRFstarIII™ high-sensitivity GPS receiver

Interfaces: USB 2.0 full-speed

Antenna: Built-in patch; MCX-type connector for optional external GPS antenna connection

Physical

Size: 4.4"W x 3.2"H x 2.2"D (11.3 x 8.2 x 5.6 cm)

Weight: .59 pounds (269 g)

Display: 2.8"W x 2.1"H (7.2 x 5.4 cm); 320 x 240 pixels; sunlight-readable, anti-glare TFT LCD, with white backlight and touch screen

Case: Not waterproof

Temp. range: 32°F to 140°F (0°C to 60°C)

Data storage: Indefinite; no memory battery required

Power

Input: 12/24v DC
