

Position Title: Demand Planner
Department: Supply Chain
Reports to: Supply Chain Manager
Location: Romsey

Position Summary:

Responsible for the demand management of sellable products as related to targeted logistics customers.

Essential Functions:

- Recognition of all demands for products to support the marketplace
- Investigate variances and trends occurring in the marketplace. Work with the responsible sales manager for large programs or logistic customers making a significant impact on the demand
- Work with the Inventory Planner to assure supply of product supports the demand and to advise management when discrepancies exist
- Liaise with marketing and supply organisations to consolidate, analyse and review forecasts and production plans
- Develop forecast accuracy metrics, identify opportunities and recommend action plans
- Responsible for the creation, reviewing and updating of demand plans in Oracle
- Manage orders for Collaborative Planning Forecast Replenishment customers, including EDI order management
- Ensure customer service goals are established and maintained for logistics targeted retail or OEM customers
- Facilitate the review and reporting of store POS (point of sale) and inventory numbers as well as customer distribution centre inventory
- Work with Vendor Managed Inventory programs (VMI) and CPFR (Collaborative Planning Forecast Replenishment)

- Coordinate large returns of customer product from mass merchandisers, OEM's and targeted logistic customers
- Routinely present individual customer report cards on delivery performance and customer in stock positions
- Analyse and report on Customer Sales to Forecast performance; introducing appropriate corrective actions.
- Advise customer contacts or make recommendations for changes in inventory or stocking levels to optimize the overall customer supply chain inventory and sell through of product

Other Responsibilities:

- Accept and complete projects and other miscellaneous duties as assigned
- Perform other job-related duties as assigned

Education, Skills and Experience Required:

- Demand and Manufacturing Resource Planning experience
- Excellent written, verbal and detailed analytical skills
- Can-do, collaborative attitude
- Must be flexible and able to work in a fast paced environment
- Highly motivated self starter
- Proficient computer skills in Microsoft Word (particularly Excel)
- European Language skills would be helpful

Desirable Qualifications:

- 3+ years Oracle planning experience, ideally ODP or ASCP
- Industry experience in High Volume Consumer Electronics
