

GARMIN®

THE PERFECT PASSENGER

GARMIN DASH CAM™
Driving Recorders with GPS

YOUR EYEWITNESS THAT NEVER BLINKS

These compact cameras stay out of sight, but they never lose sight of what happens on the road. Just plug them in, and you can hit the road knowing that these cameras are capturing high-quality video. Automatic Incident Detection (G-sensor) saves video footage upon impact, and the cameras are GPS-enabled, so all footage is stamped with location, time, date and speed. You'll know exactly what happened and have proof.

These trusty dash cameras not only act as your eyewitnesses as you drive, but they also provide advanced driver alerts — such as forward collision and lane departure warnings¹ — to encourage safer driving.

CAPTURE A CLEAR RECORDING OF YOUR DRIVE

DASH CAM 45

Easy to use and install, Dash Cam 45 has a 2.1-megapixel camera with 1080p video capture and 1920 x 1080 resolution. All footage is stamped with time and location so you know exactly when and where events happened.

DASH CAM 55

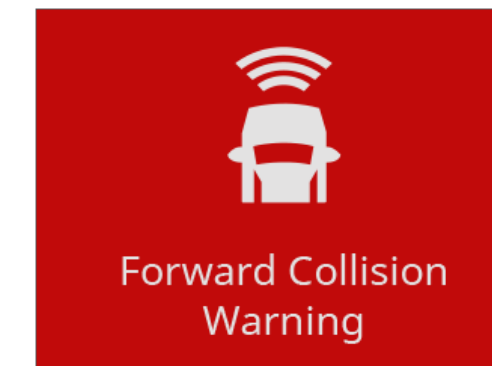

Includes everything available with Dash Cam 45 and adds a 3.7-megapixel camera with 1440p video capture and 2560 x 1440p resolution. In addition, you can command Dash Cam 55 with your voice and keep your hands on the wheel. Say "OK, Garmin" to save video, take a picture, start/stop audio recording and start/stop Travelapse™ video capture feature.

DASH CAM 65W

The small and discreet Dash Cam 65W has an extra-wide 180-degree field of view that captures more of the environment, including cross traffic. Provides advanced driver alerts to help avoid incidents, and it responds to voice commands. You just look ahead and drive.

DRIVER ALERTS ENCOURAGE SAFER DRIVING

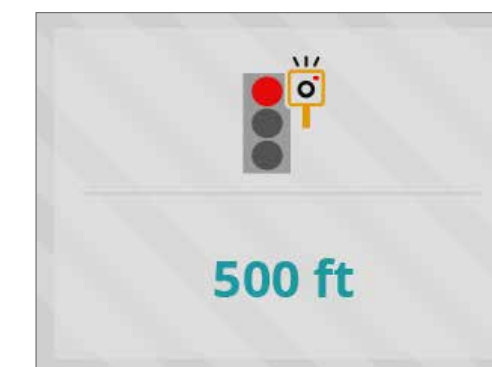

FORWARD COLLISION WARNING¹

Alerts you when driving too closely to the car ahead.

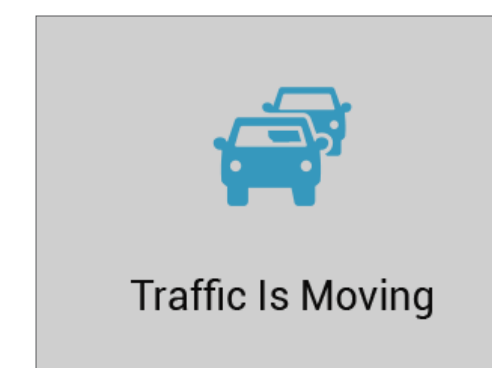

LANE DEPARTURE WARNING¹

Alerts you if you drift off the road or into oncoming traffic.

RED LIGHT CAMERAS AND SPEED CAMERAS²

Cyclops red light and speed camera locations are preloaded.

"GO" ALERTS

Notifies you when stopped traffic ahead of your vehicle begins moving again.

BUILT-IN CONVENIENCE

SHARE THE DRIVE WITH TRAVELAPSE™ VIDEO CAPTURE FEATURE

Download and pair the free Garmin VIRB® app with your dash cam to easily record your full drive and condense it into a short video recap to share with family and friends.

WIRELESSLY SYNC VIDEOS TO YOUR SMARTPHONE

These cameras also have built-in Wi-Fi® so you can wirelessly sync videos to your compatible smartphone after downloading the free VIRB App. This makes it easy to share videos with friends, insurance agencies or legal authorities.

MONITOR YOUR PARKED VEHICLE

Parking Mode detects motion and records when your car is parked and turned off. (Requires Garmin [Parking Mode Cable](#), sold separately; professional installation recommended.)
