WARNING:

No government agency or other organization has verified the information in this product, and none accepts liability for the accuracy of reproduction or any modifications made thereafter. No government agency or other organization warrants that the product satisfies national or international regulations regarding the use of the appropriate products for navigation or that it contains the latest information available.

WARNING:

Garmin Digital maps/charts should not be used as the sole means of navigation. Digital maps/charts are intended to be used as an aid to traditional navigational charts, not as a replacement. Only official government charts contain all information needed for the safety of navigation, and as always, the captain is responsible for their prudent use. A prudent navigator never relies on any single source of navigational information. Garmin strives to provide its customers with the most economical, accurate and up-to-date electronic maps available. However, features are continually changing, so the data may not reflect the latest modifications and/or additions in your area. Garmin makes no warranty as to the accuracy or completeness of the map data.

WARNING:

Garmin map data and bottom information are for navigation reference only, as bottom conditions are continually changing. This product is for general reference.

WARNING:

Some of the information in this product may have been produced, in part or whole, from withdrawn government agency and other organization products. Changing conditions will render this product obsolete and inaccurate.

DISCLAIMERS:

The National Park Service shall not be held liable for improper or incorrect use of the data described and/or contained herein. These data and related graphics (i.e. "GIF or JPG" format files) are not legal documents and are not intended to be used as such. The information contained in these data is dynamic and may change over time. The data are not better than the original sources from which they were derived. It is the responsibility of the data user to use the data appropriately and consistent within the limitations of geospatial data in general and these data in particular. The related graphics are intended to aid the data user in acquiring relevant data; it is not appropriate to use the related graphics as data. The National Park Service gives no warranty, expressed or implied, as to the accuracy, reliability, or completeness of these data. It is strongly recommended that these data are directly acquired from an NPS server and not indirectly through other sources which may have changed the data in some way. Although these data have been processed successfully on computer systems at the National Park Service, no warranty expressed or implied is made regarding the utility of the data on other systems for general or scientific purposes, nor shall the act of distribution constitute any such warranty. This disclaimer applies both to individual use of the data and aggregate use with other data.

Tennessee Valley Authority expressly disclaims any warranties or representations whatsoever with respect to the data in this product, including any warranty of non-infringement, merchantability or fitness for a particular purpose, any warranty that the material is accurate or suitable for your needs, or any warranty that the material will not result in injury or damage when used for any purpose.

The data represent the results of data collection and/or processing for the specific Oklahoma Water Resources Board (OWRB) activity or purpose described in metadata as follows; The purpose of this data is for current lake volume calculations, and future sedimentation studies on McGee Creek Lake, Lake Stanley Draper, Lake Hefner, Lake Eucha, and Atoka Lake. The purpose of this coverage is to show the collected bathymetric survey points of Sardis Lake, Spavinaw Lake, Lake Overholser, Lake Murray, Lake Frederick, Hugo Lake, Heyburn Lake, Dave Boyer Lake, El Dorado Lake, Grand Lake O' the Cherokees, Lake Ellsworth, Lake Lawtonka, and Okemah Lake. These depth points were used to create the surface model of the lake bottom and to calculate the lake volume. As such, the data are valid only for their use, content, time, and accuracy specifications determined or intended by, or acceptable to, the OWRB. These data are not guaranteed to be useable, timely, accurate, or complete. The user is responsible for any use of these data other than their use by the OWRB, and for the results of any application of the data for other than the purpose intended by the OWRB. Although these data have been processed successfully on a computer system at the OWRB, NEITHER THE STATE OF OKLAHOMA NOR THE OWRB NOR ANY OTHER AGENCY THEREOF, NOR ANY OF THEIR EMPLOYEES, CONTRACTORS, OR SUBCONTRACTORS, MAKE ANY WARRANTY, EXPRESS OR IMPLIED, NOR ASSUME ANY LEGAL LIABILITY OR RESPONSIBILITY FOR OR AS TO THE ACCURACY, COMPLETENESS, USEFULNESS OR MERCHANTABILITY OF ANY DATUM, SOFTWARE, INFORMATION, APPARATUS, PRODUCT, OR PROCESS DISCLOSED, NOR REPRESENT THAT ITS USE WOULD NOT INFRINGE ON PRIVATELY OWNED RIGHTS. NOR SHALL THE ACT OF DISTRIBUTION CONSTITUTE ANY SUCH WARRANTY. THIS DISCLAIMER APPLIES BOTH TO INDIVIDUAL USE OF THE DATA AND AGGREGATE USE WITH OTHER DATA. Conclusions drawn from or actions undertaken on the basis of, such data and information are the sole responsibility of the user. Users are cautioned to consider carefully the provisional nature of these data and information before using them for decisions that concern personal or public safety or the conduct of business that involves substantial monetary or operational consequences. Without limiting the generality of the foregoing, THESE DATA SHOULD NOT BE USED TO IDENTIFY UNDERWATER HAZARDS INCLUDING BUT NOT LIMITED TO ROCKS, SHOALS, AND VEGETATION. THESE DATA SHOULD NOT BE USED FOR NAVIGATION PURPOSES.

The data provide by New Hampshire Department of Environmental Services is a rough estimate of a lake's depth contours and SHOULD NOT be used for navigational purposes.

Digital data in New Hampshire Geographically Referenced Analysis and Information Transfer System (NH GRANIT) represent the efforts of the contributing agencies to record information from the cited source materials. Complex Systems Research Center (CSRC), under contract to the Office of State Planning (OSP), and in consultation with cooperating agencies, maintains a continuing program to identify and correct errors in these data. Neither OSP nor CSRC make any claim as to the validity or reliability or to any implied uses of these data.

CSRC maintains documentation on all methods used to collect and process these digital data and will provide this information to users upon request.

OSP and CSRC will not be responsible for, or provide technical support for uses of NH GRANIT data which are redistributed by a user to a second or subsequent parties, except for municipalities which have obtained data from regional planning agencies.
