Licensee understands and agrees that it is solely responsible for providing End User support and any other technical assistance for the Licensee Applications. Garmin may redirect End Users and potential End Users of the Licensee Applications to the email address on Licensee's account for purposes of answering general application inquiries and support questions. Notwithstanding the foregoing, Licensee acknowledges that Garmin may update or modify the API from time to time and in Garmin's sole discretion (in each

Updates may adversely affect how Licensee Applications communicate with the Garmin Connect services or any other Garmin web services. Licensee is required to make any changes to Licensee Applications that are required for integration as a result of such Update at Licensee's sole cost and expense. Licensee's continued use of the API or Garmin Brand Features following an Update constitutes binding acceptance by Licensee of the Update.

4.   LICENSE GRANTS AND OWNERSHIP

4.1.   Subject to and conditioned upon Licensee's strict compliance with the terms and conditions set forth in this Agreement, Garmin grants Licensee a limited, non-exclusive, non-transferrable, revocable, and non-sublicensable (except to subcontractors approved by Garmin) license during the term of this Agreement to: (a) embed the API and underlying content into Licensee Applications solely for internal business purposes so that Licensee Applications can interface directly with Garmin Connect and/or other Garmin web services; and (b) use data transmitted through the API (i) solely for internal business purposes, (ii) only to the extent necessary to format and display such data (A) in Licensee Applications or (B) in a third party application or on Licensee's or a third party's website, in each case, using Licensee Applications, and (iii) only as allowed by law and in compliance with each End User's consent. Licensee acknowledges that there are no implied licenses granted under this Agreement.

4.2.   Garmin reserves the right, but is not obligated, to require Licensee to submit the Licensee Application for review by Garmin prior to implementation or publication of the Licensee Application. Garmin may approve or decline the Licensee Application in its sole discretion. In addition to the foregoing, Garmin may, in its sole discretion and at any time, determine that the Licensee Application does not meet all or any part of the Application Requirements or rescind or suspend any License Key, even if the Licensee Application meets the Application Requirements. If Garmin declines a Licensee Application or determines that a Licensee Application does not meet all or any part of the Application Requirements, then Licensee agrees that it will not implement, publish, or otherwise allow any End User to use or access such Licensee Application, unless and until Licensee receives Garmin's express written approval. None of Garmin's review, testing, or approval of the Licensee Application limits or relieves Licensee of any responsibilities related to the Licensee Application or limits Garmin's rights and remedies under this Agreement.

4.3.   Licensee acknowledges and agrees that the API and Garmin Brand Features are owned or licensed by Garmin and are licensed, not sold, to Licensee on the terms and conditions set forth in this Agreement. Licensee does not acquire any ownership interest in the API or Garmin Brand Features under this Agreement or any other rights thereto other than in accordance with the rights granted herein and subject to all terms, conditions, and restrictions under this Agreement. Garmin and/or its licensors reserve and shall retain their entire right, title, and interest in and to the API and Garmin Brand Features, including all copyrights, trademarks, and other intellectual property rights therein or relating thereto, except as expressly granted to Licensee in this Agreement. This Agreement defines Licensee's legal use of the Garmin Brand Features and the API, including all Updates, revisions, substitutions, and any copies of the API made by or for Licensee. All rights not expressly granted to Licensee are reserved by Garmin.

4.4.   Licensee will use commercially reasonable efforts to safeguard the API and Garmin Brand Features (in each case, including all copies thereof) from infringement, misappropriation, theft, misuse, or unauthorized access. Licensee will promptly notify Garmin in writing if Licensee becomes aware of any infringement or other violation of any intellectual property rights in the API or Garmin Brand Features and will fully cooperate with Garmin, at Garmin's expense, in any legal action taken by Garmin to enforce Garmin's intellectual property rights.

4.5.   All Licensee Applications that transfer End User Data to Garmin, including to Garmin Connect, must (a) present each End User with accurate, complete, and conspicuous notice that the End User Data will be transferred to Garmin, a brief summary of the purpose of Processing, method of Processing and the personal data which will transfer and includes a link to the Privacy Policy For Garmin Connect and Compatible Garmin Devices (https://www.garmin.com/privacy/connect), (b) obtain each End User express consent to transfer the End User Data to Garmin, and (c) inform each End User that it is the End User's responsibility to comply with any and all restrictions regarding the End User's use of the Additional Terms and that (i) the End User must not upload the End User Data to the End User's Garmin Connect account if the End User is restricted from doing so and (ii) the End User must not modify the Additional Terms if the End User is restricted from doing so.

4.6.   Licensee agrees that Garmin shall be free to copy, modify, create derivative works of, publicly display, disclose, distribute, license, sublicense, incorporate, and otherwise use all Licensee Data , including all derivative works thereto, for any and all purposes, commercial or otherwise, with no obligation of any kind to Licensee, including any obligation to remove such transferred Licensee Data from Garmin's servers, products, or applications or compensate Licensee or any End User. 4.7.   Licensee and its employees, contractors, and agents may voluntarily provide Garmin with feedback or comments related to the API and/or Garmin Brand Features and/or otherwise related to this Agreement ("Feedback"). Licensee hereby assigns, and will cause its employees, contractors, and agents to assign, to Garmin all right, title, and interest in any ideas, know-how, concepts, techniques, or other intellectual property rights contained in the Feedback, for any purpose whatsoever and without any attribution or compensation to Licensee or any third party. Licensee agrees that Garmin shall be free to copy, modify, create derivative works of, publicly display, disclose, distribute, license, sublicense, incorporate, and otherwise use Feedback, including all derivative works thereof, for any and all purposes, commercial or otherwise, with no obligation of any kind to Licensee or any third party. For the avoidance of doubt, Garmin will not be required to use any Feedback.
