# AUGUST 2019 MARINE SOFTWARE UPDATE

In an ongoing effort to improve our products and provide enhanced features to existing users, we are excited to announce the August 2019 marine software update. It provides improved functionality and new features for the ECHOMAP™ Plus and ECHOMAP Ultra charplotters, GPSMAP® 7x2, 9x2, 10x2, 12x2, 12x2 Touch and 7400/7600 chartplotters and GPSMAP 8400/8600 premium glass helm chartplotters.

Visit Garmin.com, or use the ActiveCaptain® app for a free download of the software update, or purchase the update on a preloaded data card shipped from Garmin.

Please see below for a few featured highlights found in the update as well as a detailed reference table at the end of the document.
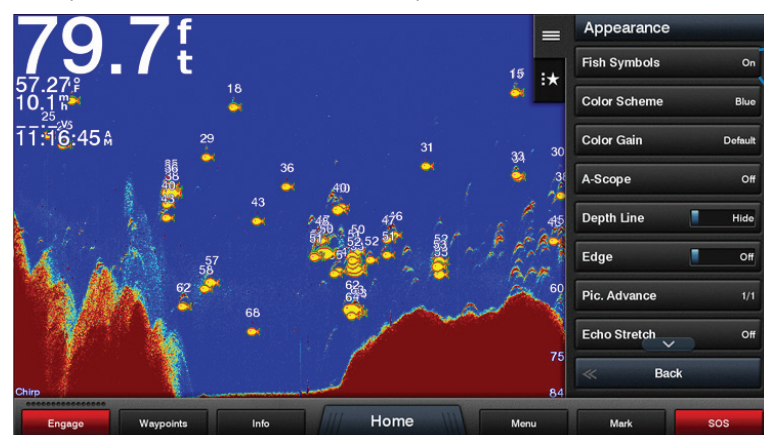

## Sonar Zoom

The new pinch-to-zoom interface is for traditional and scanning sonar. Use this new feature in full or combo screens.
This update is available for ECHOMAP Plus, ECHOMAP Ultra and GPSMAP chartplotters.

## Fish Symbols

Fish symbols are back in GPSMAP chartplotters. Users may turn them on or off and choose between four symbol options.
This update is available for GPSMAP chartplotters.

# AUGUST 2019 MARINE SOFTWARE UPDATE

## OneHelm™ Visibility by Station

OneHelm partners now have the ability to deliver multiple web apps from a single server and choose what station on the boat to display them on. They may customize the web apps for control from specific stations on the vessel or remove from certain stations.

This update is available for GPSMAP® chartplotters.

## Hull ID

This new feature links the vessel hull identification number to Garmin products, simplifying the process of registering multiple vessels by the OEM and tracking of warranties by Garmin.

This update is available for ECHOMAP™ Plus, ECHOMAP Ultra and GPSMAP chartplotters.

## Force™ Trolling Motor Compatibility

Compatible chartplotters can now integrate with the Force trolling motor, providing complete control of your Force™ with a trolling motor user interface. A wireless connection allows you to easily use the built-in autopilot and other key features
